ProMed offers close to 100 products under our private-label Compliance® and Embrace® brands, including disposable incontinence management products, exam gloves, skin care and blood glucose monitoring supplies.

There's an important reason that we offer fewer private-label items than our competitors. To earn the right to wear our name, a product must exceed the highest standards on the market. Our ownership, clinical and senior management teams go to great lengths to research, review and test products. In this way, we ensure that the Compliance and Embrace families of products are the very best and that shortcuts sacrificing quality are never taken.

At the heart of all Compliance products is our commitment that they will help you improve care, save time and reduce costs.

## Compliance Synthetic Exam Gloves

Compliance Synthetic Exam Gloves offer barrier protection equivalent to latex gloves. These gloves meet the same rigorous standards as other exam-grade gloves and are manufactured from polyvinyl chloride (PVC).

### Features

- 150-count boxes reduce order frequency and free valuable storage space while fitting in existing glove box holders
- Eliminate reactions to latex proteins and other conditions associated with latex glove use
- Superior sensitivity and fit

Item #	Size	Unit of Sale
600-V111	Small	150/bx   10 bx/cs
